Summary

I have extensive experience in web development and have worked on a variety of projects ranging from small scale websites to larger e-commerce stores.

I specialize in React.js, HTML5, CSS and React Native, and I have a passion for creating modern, responsive, and user-friendly websites. I'm also comfortable working with various development frameworks and libraries.

I'm highly motivated and thrive when working in teams. My communication and problem-solving skills help me to collaborate effectively with my peers and clients. I'm also a quick learner and am always looking for ways to improve my knowledge and skills.

I have also run my own business, managing a team of more than ten employees, and working on two online projects related to restaurants, coffee houses, and online shops on Instagram.
